SOBRE MI

Maiol was born in Arenys de Munt (Barcelona) in 1996. He grew up close to music and performing due to the work of his parents. In parallel to the scholastic studies he begins to study circus and piano from 6 years and later he will switch piano for harpsichord. In 2014 after finishing her high school studies without knowing what to study at university he decides to apply to Flic Scuola di Circo in Turin. There he meets Francesco Germini, with who will start to train as a hand to hand duo. In 2016 they get accepted in ESAC (École Supérieure des Arts du Cirque) in Brussels where they continued their formation in circus and other complementary fields as dance, interpretation, etc. They got graduated in June 2019. Currently they're working with Overhead Project and Circo EIA. They continue to perform their graduation number in some Festivals.
