

A hilarious mix of physical comedy, clowning and perfectly crafted juggling routines, where everyday objects are brought to life.

*"Spectacular fun" ★★★★★ (The Wee Review)*

Mr Vita presents a highly skilled gentleman juggler comedy show for all ages.

Mr Vita performs finely crafted juggling routines, mixing classical and experimental juggling. Bringing to life everyday objects such as fishing poles, drinking glasses and kebab sticks alongside invented props and gymnastic balls, in routines that guarantee to surprise and entertain all age groups.

With the air of a punkish matador, this eccentric and playful character looks like he could have walked straight out of a cartoon and onto the stage. Rather, he invites the audience into his zany cartoon world, communicating with his expressive rubber skin, physical comedy and sounds.

Mr Vita has his own unique style of audience participation and invites his audience's to be highly interactive throughout the show as he expertly mixes together circus, clowning and gags.

The show culminates with a traditional style grand finale that sees Mr Vita balanced high above the ground on a rola bola while juggling and spinning a frisbee on his head.

The show can be tailored to meet the needs of the client and can be performed in versions from 10-45 min. Please don't hesitate to contact Kiki for more information.
