

Provided by the Organisation:

- A dark, diaphanous, flat and even space, at least 10 m x 12 m, the ideal is 12 m x 14 m (includes welcoming the audience, 32 people)
- Two separate 220v household power sockets at the foot of the structure
- Cable guides: 2 sections of 2m each
- One 15" subwoofer
- Two ladders, 1.5m high
- Dressing room for 4 people with a hot water shower
- Drinking water for 4 people
- Van access to unload at the foot of the space
- A parking space for an Iveco van: 6m long x 2.5m high
- Two tables or two clothes racks with hangers for the audience to leave their coats, bags, etc.

The company provides:

A mobile structure: 6m diameter x 3m high (not necessary to fix it into the ground)

Benches for the audience

The company provides the lighting and sound for the piece.

ASSEMBLY

6 hours

2 people to help unload

1 machinist during the assembly

1 electrician during the assembly

DURING the FUNCTION

Councillor responsible for the space and public reception with access to the lights, air conditioning or heating of the space.

IT IS IMPORTANT THAT THERE IS AIR CONDITIONING, HEATING OR AN AIR CURRENT, THAT THIS PIECE REQUIRES. WE USE OBJECTS THAT ARE VERY SENSITIVE TO THE AIR CURRENTS.

DISMANTLING AND LOADING

2 hours
1 machinist during the dismantling
1 electrician during the dismantling
2 people to help load
